PROFESSIONAL SUMMARY

- Team Lead and Senior Android & Flutter Developer with 5+ years of experience designing, developing, and delivering enterprise-grade mobile applications using Kotlin, Java, Flutter, and Dart. Experienced in leading engineering teams while remaining hands-on with architecture, development, debugging, and production releases.
- Strong expertise in Android SDK, Clean Architecture, MVVM, Coroutines, Flow, Hilt, Room, Media3, ExoPlayer, Android TV, Camera2, MQTT, NFC, REST APIs, AI integration, ARCore, and Flutter application development for enterprise solutions.
- Led development of Digital Signage, Logistics, Enterprise Mobility, NFC, and AI-powered Android applications for international clients, with a strong focus on scalability, maintainability, offline capabilities, and performance optimization.
- Passionate about solving complex Android platform challenges, mentoring developers through code reviews and architecture discussions, and delivering production-ready mobile solutions that align technical implementation with business goals.

TECHNICAL SKILLS

Languages & Frameworks

Kotlin

Java

Dart

Android SDK

Flutter

Jetpack Components

Jetpack Compose

Architecture, Libraries & Platforms

Clean Architecture

TOP PROJECTS

SpotX

Feb 2026 – Present

- Leading Android development for a commercial Digital Signage platform focused on enterprise media distribution and large-scale Android device management.
- Implemented reliable multimedia playback using Media3 ExoPlayer while addressing chipset-specific decoder behavior across Android TV hardware.
- Built AI-powered audience analytics using Camera2 to provide demographic insights and engagement measurement.
- Collaborated with product stakeholders to continuously enhance platform stability, scalability, and enterprise deployment workflows.

GIGGO

May 2023 – Mar 2024

- Contributed to the redevelopment of a logistics and shipment management application serving customers across Nigeria and Ghana.
- Implemented shipment booking, parcel tracking, QR code scanning, payment integration, and location-based services.
- Improved application performance, maintainability, and production stability through continuous feature enhancements and bug fixes.

Remotely

May 2025 – Dec 2025

- Built a ARCore AR measurement utility for Energy Estimator, improving measurement accuracy and usability over manual methods.
- Led end-to-end R&D as sole developer on ARCore, 3D modeling, and Android Sensor APIs for real-time plane detection and measurement rendering.
- Delivered a robust, production-ready AR solution using sensor fusion (ARCore + Accelerometer + Magnetometer) to streamline home energy estimation.

GetWetap – NFC Business Card

Jul 2023 – Dec 2023

- Developed an NFC-enabled digital business card solution allowing users to instantly share professional profiles through contactless interactions.
- Implemented NFC communication, Firebase services, and Google APIs while improving compatibility across different Android devices.
- Enhanced application reliability by resolving NFC-related device compatibility issues and optimizing user experience.

PROFESSIONAL EXPERIENCE

Codknox Software Solutions Pvt. Ltd.

Jul 2024 – Jul 2026
Mohali, Punjab

Team Lead | Senior Android & Flutter Developer

- Promoted to Team Lead for delivering enterprise Android and Flutter solutions while driving technical decisions and mentoring developers.
- Led end-to-end development of enterprise mobile applications using Kotlin, Flutter, Clean Architecture, MVVM, Coroutines, Hilt, and Room.
- Developed Digital Signage, Android TV, AI, Camera2, MQTT, and LiveKit solutions, ensuring scalable and reliable production deployments.
- Resolved complex Android platform challenges, including media playback compatibility, offline synchronization, and enterprise device management.
- Collaborated with international clients, product teams, and QA to deliver high-quality mobile applications on schedule.

Zimble Code Software Solutions Pvt. Ltd.

Jul 2022 – Jun 2024
Mohali, Punjab

Senior Android & Flutter Developer

- Developed Android and Flutter applications for international clients using Kotlin, Java, Flutter, and Dart.
- Integrated REST APIs, Firebase, payment gateways, QR scanning, location services, and third-party SDKs.
- Optimized application performance, resolved production issues, and improved code quality through reviews and collaboration.

Zero2unicorn Labs Pvt. Ltd.

Nov 2021 – Jun 2022
Mohali, Punjab

Senior Android & Flutter Developer

- Developed Android and Flutter applications for international clients using Kotlin, Java, Flutter, and Dart.
- Designed maintainable applications with MVVM, Repository Pattern, Coroutines, Hilt, and Room.
- Integrated REST APIs, Firebase, payment gateways, QR scanning, location services, and third-party SDKs.
- Optimized application performance, resolved production issues, and improved code quality through reviews and collaboration.

EDUCATION

2015 – 2019

Bachelor of Engineering (Computer Science)

Chandigarh University, Punjab
